PERSONAL DETAILS

Current Location Bengaluru
Date of birth August 7, 2004
Gender Male

EDUCATION

Graduation B.Tech / B.E. (Computer Science and Engineering (CSE))
Avanthi's St Theresa Institute of Engineering and Technology with Score 8.0%
Achievements: Top 3 in class, Department topper, Gold medalist

Class XII Andhra Pradesh
with 83% in 2021
Achievements: Top 10 in class

Class X Andhra Pradesh
with 8.7% in 2019

Certification Course Web Developer Certification (April 2024 - Present)
cybersecurity fundamentals (September 2024 - Present)
prompt engineering (September 2024 - Present)

INTERSHIPS AND PROJECTS

Internships **Bredon It Solutions Private Limited** (Duration July 2025 - December 2025)
I developed an E-commerce web application using React for the frontend and Django REST Framework for the backend. The platform allows users to browse products, view details, add items to cart, and place orders. I implemented responsive UI, product filtering, and dynamic cart functionality. The backend handles APIs, authentication, and database management using MySQL. This project helped me improve my skills in full-stack development and real-world application design.
Skills used - Python,Django,Django Framework,React.js,MySQL,AWS,GIT,Github,AWS Lambda,AWS Glue

Projects **Motivo** (Duration July 2025 - October 2025)
I developed an E-commerce web application using React for the frontend and Django REST Framework for the backend. The platform allows users to browse products, view details, add items to cart, and place orders. I implemented responsive UI, product filtering, and dynamic cart functionality. The backend handles APIs, authentication, and database management using MySQL. This project helped me improve my skills in full-stack development and real-world application design.
Skills used - python,Django Framework,MySQL,AWS,GIT,Github

Digital-menu system (Duration June 2025 - October 2025)
I built a Digital Menu System where users scan a QR code to view the menu, place orders, and pay online. The backend is built with Django REST Framework and the frontend uses React. It includes real-time order tracking, serve code verification, and Cloudinary image integration. Admins can manage and deliver orders easily. The system is deployed using Vercel and Render.
Skills used - Python,Django,Django Framework,Django Rest API,MySQL,AWS,AWS IAM,AWS Lambda

SKILLS AND ACHIEVEMENTS

Skills AWS Glue,AI,HTML,CSS,React.js,Python,MySQL,Django,Django Framework,GIT,Github,ETL,AWS Lambda,Amazon Ec2,Javascript,Airflow,Pyspark,MongoDB,Node.js,Express,Amazon RDS,Amazon Cloudwatch,C,Java Spring Boot,Phpmyadmin,Angularjs,TypeScript

Language English (Spoken), Telugu (Read/Write), Hindi (Read/Write)

Awards & Honor Hackathon 1st

Test score GATE (20000)
